Develop Threads, Next.js 14 app that skyrocketed to 100 million sign-ups in less than 5 days, and dethroned giants like Twitter, ChatGPT, and TikTok to become the fastest-growing app ever!

Ultimate Next 14 Course is now live: <https://www.jsmastery.pro/next15>
Next.js 14 eBook: <https://resource.jsmastery.pro/nextjs...>

Quick heads up: This tutorial covers Next.js 13, but don't let that number fool you. Next.js 14 is essentially a performance-focused update of version 13. That means every concept, technique, and feature we dive into here is just as applicable and relevant in Next.js 14

★ Clerk - https://clerk.com/?utm_source=js_mast...

👛 Land your dream job with expert mentor guidance or get your money back. To find out more, apply here: <https://jsmastery.pro/masterclass>

If you're experiencing Error: ClerkInstanceContext not found, apply the following Fix: Wrap your app with ClerkProvider in both /auth/layout.tsx and root/layout.tsx files.

 Materials/References:

GitHub Code (give it a star 🌟): <https://github.com/adrianhajdin/threads>
Public folder (assets): <https://drive.google.com/file/d/1lg7M...>
GitHub Gist Code: <https://gist.github.com/adrianhajdin/...>

- In this video, you'll:
- Master Next.js 14 with Server Side Rendering
 - Learn MongoDB handling of complex schemas, multiple data population
 - Create beautiful layouts with TailwindCSS
 - Use Clerk for authentication
 - Handle file uploads with UploadThing
 - Explore Shadcn components
 - Listen to real-time events with webhooks
 - Understand middleware, API actions, and authorization
 - Explore & integrate new Next.js layout route groups
 - Validate data with Zod
 - Manage forms with react hook form
 - Create reusable components
 - Build a solid application architecture
 - Deploy the application and more!
